

Planning and Highways Meeting
Tuesday 2 March 2021
Remote meeting via Zoom
7pm

Present

Cllrs Horrocks (Chairman), D. Allan, Briggs, Hodgins, Jolley, Puri & Simper.

In Attendance

Olive O'Sullivan Chief Executive Officer (CEO), and Natalia Gorman – Senior Administrator.

Cllrs Cooper, Pocock and Wood as non-voting observers.

There were four members of the public present.

Two residents had submitted questions to the CEO.

Amy Millichope asked to speak in relation to planning application 2021/00512/PA.

Q: " There is widespread misconceptions across Sutton Coldfield that as plans have been re submitted, the reasons for refusal 2020 have been rectified. This is not the case, and I would like to highlight this and deliver a brief evidence-based overview of the "new" plan, how it does not comply with the BCC 'Places for living' guidance and does not acknowledge the change in ground level across the site. Both factors result in the development overwhelming the surrounding properties on Henley Close and Arden Drive."

Josie McKeown was invited to speak. Ms McKeown raised concerns of planning application 2021/00512/PA

Q: "By way of introduction, my name is Josie McKeown and I am a Wylde Green resident who lives on Henley Close. I specifically would wish to talk about the Wylde Green Pub/nursing home development.

Firstly, I would like to highlight that the scale of the property is out of keeping, in particular the rear of the property which remains extremely close to gardens on Henley Close. This will overpower our views and will make the area feel more commercial rather than the current pleasant residential area. I believe that this large overbearing structure will take away my privacy and enjoyment from my garden.

I am concerned that the second level of the proposed development will be higher than the rooftops of houses on Henley Close which highlights further the excessive scale and how out of keeping this is with the surrounding area. Needless to say, the front of the development is even taller and causes a great deal of concern.

Secondly, I wish to speak on the architectural design of the building. The mass is disproportionate to other local properties. The design is unappealing and does not feature any visual interest which lacks residential character and is what would typically be seen in an industrial built-up area.

Thirdly, I have concerns over the planned removal of a tree which would allow a view onto the development and the lack of parking facilities available for the proposed number of residents, staff and visitors.

In my opinion, I believe the entire back of the building needs a re-design which will scale back on the excessive mass and bring the design into keeping with the area and I ask that Town Councillors can express these concerns on my behalf.”

The Chairman thanked Ms. Millichope and Ms. McKeown for their questions and advised them that Councillors will have an opportunity to discuss planning application 2021/00512/PA as part of this committee meeting.

70 Apologies for Absence

Apologies received from L. Allen.

Resolved to accept the apologies received.

71 Declarations of Interest

Cllr Puri declared a non-pecuniary interest in item 75 of the agenda.

Cllr Wood declared a non -pecuniary interest in planning application 2021/00512/PA.

72 Minutes of Last Meeting

Resolved that the minutes of the meeting of Planning & Highways Committee Meeting held on Tuesday 2nd February 2021 be signed as a true record of the meeting.

73 Matters Arising

None.

74 Questions from Members

None.

75 Petition

Councillor Puri submitted a petition supporting proposals to improve the car park at Boldmere Gate Sutton Park for Council to consider on 15th February 2021. At the time received there were 418 signatures.

The Chairman advised committee that the proposals are outlined in planning application 2021/00528/PA which would be discussed under item 76 of the agenda.

Resolved to note the petition received in support of car park improvements in Sutton Park.

76 Planning Application 2021/00528/PA

The Chairman read out the following statement.

“The Town Council supports the holding of the 2022 Commonwealth Games Triathlon Event in Sutton Park having regard to the benefits this should bring in terms of wider public recognition of the Park and its links to the Royal Town as well as the boost this would give to the local economy from increased numbers of visitors to the area. Though outside the scope of this particular application the responsible authorities should ensure that adequate arrangements are put in place to manage the event itself which should be the subject of further local consultation.

Policy TP8 of the adopted Birmingham Development Plan 2021 makes it clear that development which would directly or indirectly cause harm to sites of national importance (SSSIs’ and NNR’s) will not be permitted other than in exceptional circumstances and, even then, only with appropriate mitigation. To satisfy this test any development here should comply with stringent conditions to protect the site's natural and archaeological heritage including the associated opportunity to revert 6000 square metres of Park to SSSI habitat as indicated in the supporting documentation. These conditions should be rigorously monitored.

It is acknowledged in the documentation that elements of the design have been constrained by the 2022 Triathlon event. In some instances, e.g., width of entrances and gradient slopes, these may appear as incongruous overly engineered features in the Park setting and further effort should be made to mitigate these impacts in accordance with the relevant planning policies. In overall sustainability terms, given there is to be an upgrade in the power supply to the site, the Council considers that the opportunity should be taken to instal and promote electric vehicle (EV) charging points at an early stage in association with the development as part of the City Council’s evolving strategic approach to such provision.

In the BeHeard online consultation less than 12% rated the current condition of the Park as good. More generally, as part of the pre-application consultation, numerous references were made to the need to make improvements in the provision of toilet / community / play and other facilities. The documentation refers to these suggestions as being “aspirational and beyond the scope of this project due to funding constraints”. These requested improvements in basic facilities should not be regarded as “aspirational” and this reaction is illustrative of a wider problem in that these Commonwealth Games related proposals have been brought forward in isolation in the absence of an up-to-date Vision, Plan and Investment Strategy for the Park. In light of the recent independent Appraisal Report of conditions within the Park by Land Use Consultants and the recommendations they made, the Town Council urges the City Council to engage constructively on the future of the Park to put the necessary plans in place to ensure that future improvements and investments are made in a coordinated way within an agreed strategic context to maximise their effectiveness for the long term benefit of the Park and its users”.

Cllr Allan expressed his concern about the application adding that in his view the statement was quite mild given what he described as proposals that were horrendously damaging to the Park. Cllr Allan also expressed concern that the petition was merely to support improvements to parking and asked at what cost. In his view the existing car parking should be improved and that there should be stronger opposition than that set out in the statement.

Cllr Allan confirmed that he is not opposed to holding the 2022 Commonwealth Games Triathlon in Sutton Park but that he would like to see the legacy of the games to be beneficial both to the community at large and the wider West Midlands adding that, as set out, they were not strong enough.

Cllr Puri spoke in favour of car park improvements and that he would welcome comments from statutory bodies in relation to the proposals.

Cllr Cooper expressed concerns that other car parks may close as a result of these changes. The Chairman reminded Councillors that they could only comment on the proposals set out in front of them.

Cllr Briggs also expressed concern that parking would be reduced elsewhere to mitigate against the proposal for parking at Boldmere Gate.

Cllr Pocock referred to the statement read out and asked if the Committee was supportive of the application.

The Chairman asked Committee to vote on two things;

1. Object or no objection on the application
2. Submit the statement read out with Committee's response

Resolved to object to planning application 2021/00528/PA.

Resolved to include the statement with the Committee's response.

The Chairman summarised saying that on this application Committee would submit to BCC that Committee objects and that the commentary provided would be the statement read out.

Cllr Allan asked for the wording of the statement to be re-read to make sure there was no ambiguity; that Committee supported holding the Games at Sutton Park but not the planning application.

The Chairman undertook to take this away and make sure this was clear in the opening sentence of the statement.

Cllr Pocock asked for clarification that the recommendation of the Town Council was to reject the planning application.

The Chairman responded that the Committee didn't have the power to approve or reject applications; that it could raise an objection as opposed to a rejection adding that an objection had been raised to the application and that Committee would be submitting a supporting statement alongside that objection.

Cllrs Cooper and Pocock left the meeting at 20.04

2021/00512/PA	Wylde Green Public House site Birmingham Road Sutton Coldfield Birmingham B72 1DH	Demolition of existing Wylde Green Public House and associated facilities and the erection of 57 no. extra-care apartments (Use Class C2) with communal facilities and associated parking provision	Objection. Council support residents' concerns and wish to object on the following grounds:
-------------------------------	--	---	--

The significant increase in the building footprint compared to the existing pub building means that the built form encroaches much closer to the site boundaries;
Combined with the height and mass of the building represents an overdevelopment of the site resulting in an unduly oppressive and obtrusive feature when viewed from adjoining properties which would be detrimental to the residential amenity that residents of this area should be reasonably expected to enjoy. These concerns apply especially at the rear of the proposed building overlooking Henley Close where it appears required clearances to windows would be impinged. Due to the higher elevation of the proposed building residents would look down into Henley Close houses affording even more intimate views than on a normal housing development.

This proposal conflicts with relevant planning policies in relation to the quality of the built environment and places for living;
Council also feel strongly that the development should not be allowed to proceed in the absence of satisfactory Section 106 Agreement to compensate for the loss of recreational facilities and fund necessary highway mitigation measures;
As a result of the scale and massing of the building with its long continuous frontage to Birmingham Road it would appear as an incongruous feature in the street scene and would be detrimental to the character and amenity of the area;
Notwithstanding the evidence submitted given the preponderance of two and three bed units of accommodation and the associated propensity to attract a greater demand for on-site parking the Council object on the basis that the provision made is inadequate.

Resolved to forward Committee's recommendations to Birmingham City Council.

(ii) Schedule of Amended Decisions

Resolved: None.

(iii) Schedules of Planning Applications Decisions

Three applications were refused when Royal Sutton Coldfield Town Council had no objections. These applications were rejected due to specific breaches of various building codes that Royal Sutton Coldfield Town Council does not check as this is done by Birmingham City Council planners.

Resolved that Committee note the decisions.

78 Electric Vehicle (EV) Charging Network Development

The Chairman advised Committee that Manor Road currently has three parking spaces for 'up to one hour' and two electric charging points. The scheme proposed would see one additional rapid charging point added to Manor Road and there would be no loss of any bay currently on Manor Road.

Resolved to support an additional rapid charging point on Manor Road.
